Purposes of bot

- To communicate with the concerned services easily.
- To book appointments at your fingertips.
- To know about the time slots available.

Short-term goals

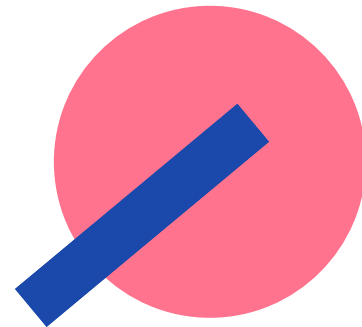

- 
- Validation of dates and entries where only specific inputs are allowed
 - Beautify the process and make it more user friendly
 - Close the session using appscript

Long term goals

- Linking the user inputs to database
- Updating the booked slots to database and displaying only available slots
- Giving the users reminders before their appointment

Thank you for your time!
